1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "tungsten carbide-based" renders the claim indefinite. Applicant's arguments filed 8/21/09 have been fully considered but they are not persuasive. It is the word "based" that renders the claim indefinite and thus the rejection stands.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Hitachi Tool (JP 2002-273607).

The rejection is maintained for reasons of record. Applicant's arguments filed 8/21/09 have been fully considered but they are not persuasive since the amount of chlorine in Hitachi Tool lies *within* the claimed range of the instant invention. Hitachi Tool discloses no more than 2 mass percent which is equivalent to 0.056 atomic percent.

The applicant is reminded that an invention defined in a product by process claim is a product, not a process (In re Bridford, 357 F. 2d 679, 149 USPQ (CCPA 1966)). When the prior art discloses a product which reasonably appears to be either identical with or only slightly different than a product in a product by process claim, the burden is on the applicant to present evidence from which the examiner could reasonably conclude that the product differs in kind from those of the prior art (In re Brown, 459 F. 2d 531, 173 USPQ 685 (CCPA 1972); In re Fessman, 489 F. 2d 742, 180 USPQ 324 (CCPA 1974)). This burden is NOT discharged solely because the product was derived from a process known to the prior art (In re Fessman, 489 F. 2d 742, 180 USPQ 324 (CCPA 1974)).

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
